J/70 WORLD CHAMPIONSHIP - 2026

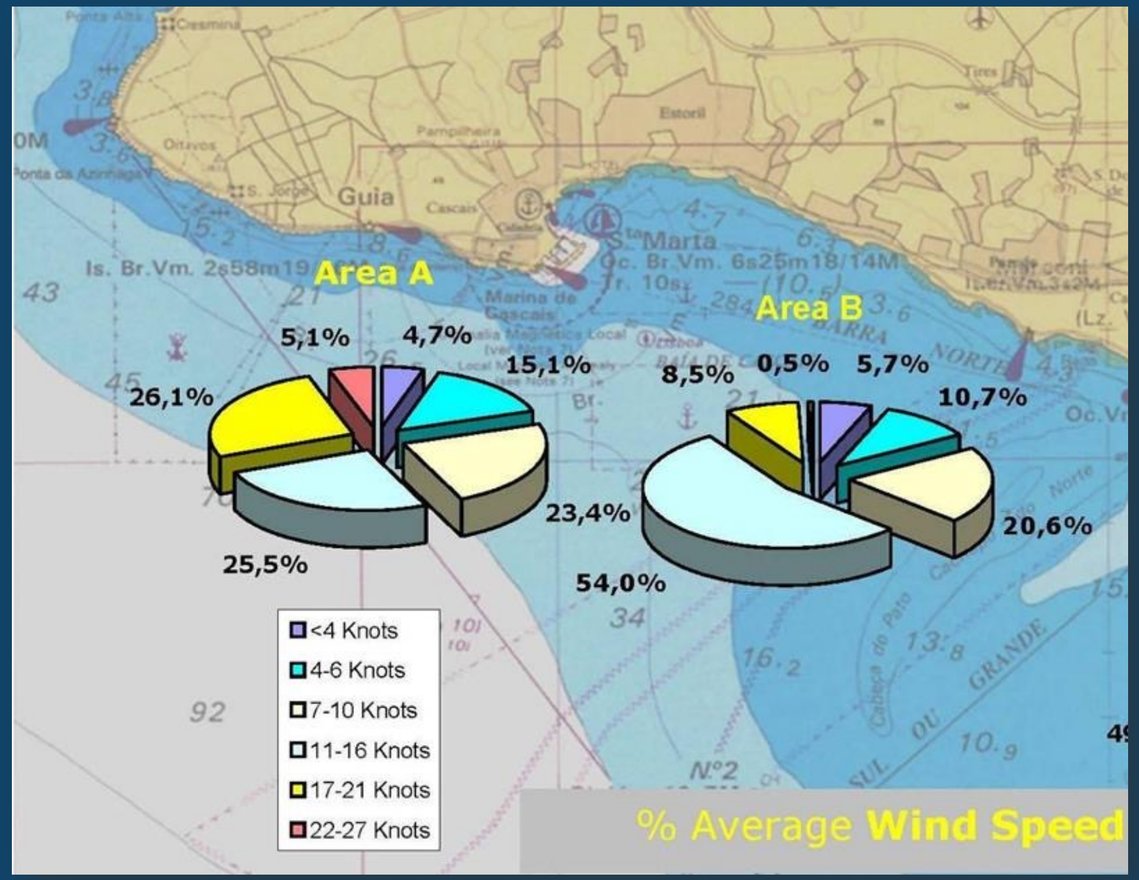

Clube Naval de Cascais will host the 2026 J/70 World Championship.
Our iconic sailing venue in the west coast of Europe will receive the premier event of the fastest growing modern one-design Class in the world. The J/70 Executive Committee has awarded the hosting of the twelfth J/70 World Championships to Cascais, Portugal in 2026.
Worldwide-recognized Clube Naval de Cascais, in its 85th anniversary this year, has a wealth of experience in organizing prime international regattas such as the TP52 Super Series, RC44 Championship Tour, Extreme Sailing Series, ISAF Worlds and several other world-class events.

Vittorio Di Mauro, President of the International Class Association, said **“Cascais is a leading venue for sailing and a seasoned organizer of top events. Their sailing conditions are recognized worldwide and appreciated!”.**

Gonçalo Esteves, President of Clube Naval de Cascais said **“Our work has been to bring major sailing events to Cascais. Last year alone, we had the TP52s Worlds, M32 Worlds, Snipe Worlds, 6Meter Europeans and a RC44 tour stop — all this beyond our normal national calendar.”**
“The J/70 is the Class of the moment, and this is the event that everyone wants. We are very happy, and we will make it great.”.

GET READY!

The Clube Naval de Cascais now begins the "road to the worlds", with this Invitational Cup and many other J/70 regattas over the coming months, we want all Clubs to have the opportunity to prepare and have contact with our waters and wind.

CLUBE NAVAL DE CASCAIS

Located in Cascais, 20 miles from Lisbon, Clube Naval de Cascais (CNC) was founded in 1938.
Since then it has played a major role in the development of water sports in Portugal, namely in sailing. Its Sailing School started in 1950 and has been the cradle of hundreds of sailors, and several of them have achieved international recognition in major international events and Olympic Games.
The waters of Cascais are considered to be one of the worlds best venues for yacht racing and in 2007 a Center of High Performance was created and is used intensively by the national and foreign sailing teams.
Since 1948, CNC has organized over 100 major international events (Iberian, European and Worlds) with great success and this has contributed positively to the local economy and promotion of Cascais.
The construction of an adjacent marina in 1995, has given the CNC the possibly to sail during the whole year instead of only a few months due to adverse marine and weather winter conditions.

ABOUT CASCAIS

Situated close to the sea and traditionally a fishing village, Cascais enjoyed an important period of development in the 14th century, when it was a major stopping off point for boats on their way to Lisbon, turning it into a very busy port at that time.

It was, however, in the second half of the 19th century, when sea bathing became a popular activity, that Cascais was given the impetus that transformed it into a very fashionable summer resort. The great driving force behind this transformation was the king of Portugal, Dom Luís I, who, in 1870, converted the Fortaleza da Cidadela into the summer residence of the Portuguese monarchy.

Cascais also began to attract the attention of the curious, who came here to enjoy a stroll by the seaside, and access to the town was greatly facilitated by the opening of the railway line between Pedrouços and Cascais in 1889. Nowadays, Cascais is a very lively and cosmopolitan town that still preserves a great deal of its earlier aristocratic atmosphere.
